

I just wanted to update you on some of our happenings. Operation Homefront recently concluded their “Holiday Meals for Military Families” event at Joint Base MDL in Burlington County on December 15, 2015. Base employees and volunteers from Walmart and Lockheed Martin joined us to provide around 250 meals, including the grocery items needed to prepare a full holiday meal. [NJ.com](#) was on scene covering the joy we brought to the families.

We have provided nearly \$30,000 of emergency financial assistance to military families through the first three quarters of 2015, and are on track to provide \$50,000 by the end of the year. Through our program, we build strong, stable, and secure military families in communities in New Jersey and nationwide. For more information or to donate, visit www.operationhomefront.net.

The support of the Foundation means a lot to us. It helps us to further our mission of building strong, stable, and secure military families so they thrive in the New Jersey communities they've worked so hard to protect.

Thank you for your generous support!
Pete
